ART MASTERS

Each week the class dips into the world of a different artist by studying their inspiration, techniques and the meaning behind their artwork. Children will experiment with the artist's style to create their own unique piece and as the term progresses begin to understand the value of diversity and the method in the madness.

ART WITH AN E

If there is one silent letter in art it's E. Emotion weaves it's way cleverly into all the creative adventures of this class. Join us as we explore and experiment with art making all about emotions and identity. From self portraits to emotion maps, calming potions and control towers, I tell you art definitely has an E! This class is perfect for all kids who love art and are learning about feelings

ART CLUB

Friday's might already be the best day of the week, but they just got better with art club on the timetable. Taking the best elements of the Art Masters class and combining it with an extra dollop of creative freedom, this class is all about learning to take inspiration, and creative energy and make it your own.
